ARMCHAIR GARDENERS HARD AT WORK

Armchair gardeners are hard at work these days.

Nothing new, say horticulturists at VPI, but some will be visited to plant the home garden.

Besides seed catalogs, home gardeners can get helpful information from Circular 639, "Vegetable Gardening in Virginia," available free from county agents or the Office of Agricultural Extension Service, at Blacksburg.

The circular carries a list of the varieties recommended for Virginia, planting dates, suggested amounts to plant, etc.

DEAN DIETRICK IS NEW ASSOCIATION HEAD

L. H. Dietrick, dean of agriculture at VPI, was elected president of the Southern Agricultural Workers' Association at a recent meeting in Memphis, Tennessee.

He succeeds Lippert S. Ellis, dean of the college of agriculture and home economics at the University of Arkansas.

Here's a calorie comparison that may surprise you. A medium-sized potato, boiled, pressure-cooked, or baked, provides only about 100 calories, about the same as a large apple or orange, or half of a large grapefruit, according to the U. S. Department of Agriculture.

One 5/8 inch of fresh, enriched bread yields about one cup soft cubes or crumbs; 3/4 cup of dry or toasted cubes, or 1/3 cup of dry crumbs.

When wrapping cake in waxed paper, sprinkle the paper with powdered sugar to keep the frosting from sticking.

While large prunes are usually priced higher per pound than the small ones, there is very little difference in the actual amount of fruit per pound.

Use eggs warmed to room temperature for recipes that call for beaten eggs. Warm eggs give more volume when beaten. When separating egg whites from the yolks, the job is easier with chilled eggs.

Two large eggs provide the same amount and quality of protein as an average serving of meat.

There's an old superstition that dreaming of eggs predicts trouble, unless the shells of the eggs are broken.

Hopkinson-Mattox Nuptials

The marriage of Miss Frances Arnold Mattox, daughter of Mrs. Bess Franklin Mattox, and the late Eric Reeves Mattox, of Appomattox County, to Alfred Edward Hopkinson, son of John Hopkinson, of Charlottesville, and of the late Mrs. Florence Barlow Hopkinson, took place Saturday at three o'clock in the afternoon in St. Ann's Episcopal Church, Appomattox. Immediate members of both families were present.

The Reverend Jean Andre Vache, rector of Johns Memorial Episcopal Church, Farmville, officiated. Wedding music was provided by Mrs. Hubert Gurney, organist, and John Wranek, tenor, of Lynchburg.

Given in marriage by her uncle, Guy Everett Mattox, of Raleigh, North Carolina, the bride wore a Parisian length princess style gown of ivory peau de soie with a portrait neckline trimmed with alencon lace. She wore a short Brussel's veil and carried a prayer book with an orchid.

Thomas William Hopkinson, of Charlottesville, was his brother's best man. Ushers were Stuart McDearmon Farrar, of Pamplin, and Thomas Boyd Mason, of Lynchburg.

After the ceremony, the bride's mother entertained with a reception at Redfields, Appomattox County.

Mrs. Hopkinson graduated from Mary Washington College in Fredericksburg, and attended graduate school at Longwood College in Farmville. Mr. Hopkinson attended the Virginia Episcopal School in Lynchburg, and the University of Virginia, Charlottesville.

He served as a captain during World War II.

The couple will live in Appomattox.

Stonewall

Stonewall, Feb. 17.- My, I think that all of the ground hogs saw their shadows more than once, from all this bad weather we are having. It is one of the deepest snows for a long time. Let's hope and pray it will soon be better.

Miss Lizzie Rice, of Richmond, has asked me to thank all of her many, many friends of our community for the lovely get-well cards they sent her while she has been on the sick list. Everyone was greatly appreciated, and she will never forget their kindness. Glad this fine lady is improving.

We want to extend our deepest sympathy to Mrs. W. D. Krantz in the loss of her mother. She was buried in Lynchburg last Saturday.

Mr. and Mrs. Alex Cyrus visited Mr. and Mrs. E. L. Chick and Mr. and Mrs. Lester Carson last Monday evening. Glad to say Mrs. Carson is improving form her illness.

Mr. and Mrs. Tommie Bondurant and family visited their son-in-law and daughter, Mr. and Mrs. Dallas Moore last Sunday.

In spite of the deep snow Sunday Mr. and Mrs. Henry Beard and Lawrence visited her parents, Mr. and Mrs. E. L. Chick.

Mr. and Mrs. Howlette Drinkard, Jr., of Lynchburg, spent the week-end with his parents, Mr. and Mrs. Howlette Drinkard, Sr.

The Stonewall home demonstration club met with Mrs. P. B. Stratton and Miss Edna Adcock last Thursday, with grand attendance. There were 15 members present and two visitors. First time our club has met without Mrs. B. G. Anderson, and I can't find words enough to tell her how very much we all missed her. Glad to hear that she is getting on so nicely at college. Our new agent, Miss Mary Armistead, was present and conducted her part of the program so nicely. We are happy to have this fine young lady with us while Mrs. Anderson is away.

Mr. and Mrs. Irby Wheeler attended the funeral of Mrs. Krantz's mother in Lynchburg Saturday evening.

Mrs. S. E. Anderson and Mrs. Martin Krause visited Mr. and Mrs. Marvin Stratton last week. Mr. Stratton is still on the sick list.

The W. S. C. S. of eBthel Church met with Mrs. Lyle Thomas last Tuesday night, with good attendance.

Bigger and Better Sputnik

London.- It has been reported that Russian's next sputnik—to be launched in the near future—will weigh a ton and a half.

Sputnik II, the Soviet satellite which has been circling the earth since November 3, weighed 1,118 pounds, a little over half a ton.

The newly launched American satellite weighs 30 pounds.

A zero tolerance for methoxychlor in milk has been set by the Food and Drug Administration. This means that the pesticide cannot be used as a dip or spray for controlling horn flies on milking dairy cows.

WHAT DO INSECTS COST?

How much damage do insects do? Here are some estimates as proffered by agricultural experts at VPI.

Each pound of insects causes the loss of five pounds of vegetation.

Seventeen grasshoppers per square yard an acre can eat one ton of alfalfa per day. Insects in the United States nullify the labor of at least 1,000,000 working men each year. More trees are killed by insects each year than are destroyed by forest fires. There are 86,000 names species of insects in the United States, and 10,000 of them are considered "public enemies."

KNOW THE WEATHER

By E. H. Sims

Why should farmers be careful when they choose the side of a hill for their barns?

There are several considerations about the weather which are advisable for a farmer before he decides upon a site for a barn. First, if he has a choice of a barn with trees on the west or the east, he should choose trees to the east.

To the west, from the barn, should be clear of trees. This prevents west winds from blowing dripping moisture on the barn after a rain. A barn also does better on the windward side of prevailing winds, or on the western slopes, usually.

On the satern slopes, usually, the air is more stagnant, and insects become more of a problem. These little considerations before building can make a difference, and save trees, quite often, that otherwise would be felled afterwards, when the barn could not be moved.

DOG DAZE

Saugus, Mass.- Paul S. Murphy said thieves ransacked his home of $1,000 in cash plus furs and jewelry after giving his watch dog frozen steaks to chew on.

He said the dog was still trying to chew through the steaks when he got home and discovered the theft.

To My Friends

I wish to take this means of expressing my sincere appreciation to each of my friends for everything that was said and done in celebration of my 50th. Anniversary of service in the County Clerk's Office. When Court convened on Saturday, February 8th, I was not aware of anything having been planned for me, but the kindness shown me on that day in eulogies, congratulations and gifts made it a wonderful day in my life, the memory of which will linger with me through the future years.

Hoping to have the privilege of serving you many more years, and with my very best wishes for each of you who had any part in the celebration and for all of my friends throughout the County, I am

Gratefully yours
